

**TO MARK THE ANNUAL INDUSTRY CONVENTION
CEGEDIM LOGICIELS MÉDICAUX WILL PRESENT ITS SOLUTIONS
DEDICATED TO PULMONOLOGISTS**

**13TH FRANCOPHONE PULMONOLOGY CONFERENCE
JANUARY 16 TO 19, 2009 - LYON - CITE CENTRE DE CONGRES - STAND 57**

Paris, January 6 2009 – Cegedim Logiciels Médicaux (CLM), software publisher and service provider to the medical profession, will attend the 13th Francophone Pulmonology Conference, to be held January 16 to 19 in Lyon.

At this major meeting of francophone pulmonologists, CLM will present its IT solutions for the industry at stand 57.

Particularly well suited to the specific needs of pulmonologists, these solutions incorporate notably the following functions:

- Interface with the Jaeger pulmonary function analyzer
- Respiratory function, fiberscope and blood gas test forms,
- Epworth sleepiness scale,
- Forms for asthma monitoring,
- User-friendly course of care management,
- Prescriptions with the HAS-certified BCB drugs database.

Like all of the software in the **LC (Logiciels Cegedim) 2009** line, these solutions provide healthcare professionals with medical communications, high-performance technology, a rich array of applications (agendas and appointment scheduling; administrative management of patient files; prescription security and assistance; etc.), and compliance with the latest technical and regulatory requirements (FSE 1.40, CCAM V11, etc.).

Links with information sharing projects

With our LC 2009 solutions, pulmonologists can link up with national and regional healthcare coordination platforms, such as regional personal medical files (DMP), DMPPro, and disease tracking networks.

Furthermore, they incorporate our GIP-CPS-approved secure medical messaging software, **Secure Medical Mail® (SMM)**, which is interoperable with all approved messaging software for easy and direct email communication among peers.

Center for Pulmonology Research

CLM has signed an agreement with the *Syndicat des Affections Respiratoires* (Respiratory Ailment Society, SAR) to create a Center for Pulmonology Research in 2009.

About Cegedim Logiciels Médicaux (CLM):

CLM is a subsidiary of France's Cegedim Group, a leader in medical IT, and offers a broad range of software called *LC 2008* and services for healthcare professionals.

LC 2008 ensures that physicians' IT equipment complies with the latest technical and regulatory requirements while allowing them to choose the solution best suited to their specialties and type of practice (private practices, clinics, healthcare centers and networks). Structured, communicative, interoperable, and scalable, the *LC 2008* line of software (Crossway, MédiClick! Studio, Doc'ware, Cardiolite, Eglantine, Megabaze, Medigest) is designed with information sharing and the DMP (French Personal Medical File) in mind.
