

**NEW VERSION OF CEGEDIM LOGICIELS MEDICAUX'S CARDIOLITE 6
TO BE UNVEILED AT THE FRENCH NATIONAL CARDIOLOGY
CONVENTION (CNCF)**

**Demonstration from 11 to 13 October 2007 at the French
National Cardiology Convention (CNCF) to be held at
Marseille's Palais du PHARO – Stand 51**

Paris, 4 October 2007 – Cegedim Logiciels Médicaux (CLM), software publisher and service provider to the medical profession, will present the 6th version of its Cardiolite cardiology software at the 19th annual French National Cardiology Convention (CNCF).

Cardiolite, the most advanced software for cardiologists

Cardiolite 6 is part of CLM's range of medical software. This new version was developed with the specific needs of cardiologists in mind. Cardiolite 6 ensures regulatory compliance and is a guaranteed time saver for healthcare professionals. Easy to use and flexible, this software solution adapts seamlessly to cardiologists' daily needs.

The new version of Cardiolite 6 offers a wealth of functions, such as:

- "Post-it" style adhesive notes
- Flexible word processing that can be easily shared with administrative staff
- Centralized management of a variety of documents and correspondence
- Ability to integrate voice dictation
- Use of personal dictionaries and access to a variety of nomenclatures
- Powerful search engine for patient files
- Automated integration of lab tests
- Ability to alter and add to patient files during consultations
- Assistance in filling out common administrative paperwork*
- Request module that enables preventive alerts

- Secure prescribing and preventive prescribing
- Reprise of forms used in earlier versions of Cardiolite
- Forms that help users respect protocols
- Statistical scorecards for monitoring the practice
- Simplified access to payment history

Completely secure exchanges of medical data with Secure Medical Mail® (SMM)

Electronic data exchange among physicians is now a reality. With the spread of ADSL, the “Healthcare data confidentiality” decree of 15 May 2007 made secure email exchange a requirement. CLM is particularly attuned to the needs of healthcare professionals and proposes a range of simple, modern and secure solutions.

With **Secure Medical Mail®** (SMM), CLM provides users with completely secure information exchange by email. Secure Medical Mail® uses the technical specifications of the “GIP CPS” healthcare professional smartcard authorities to ensure rigorous identification and authentication of correspondents and for data encryption.

Secure Medical Mail® is available on its own or paired with Cardiolite 6. In the latter case, users can access Secure Medical Mail® directly from patient files in order to transmit all or part of their consultations as well as other components of the file.

SMM enables cardiologists to establish a presence today in the vast communication network being built using the healthcare field’s information systems.

CLM will be present for the entire CNCF conference to demonstrate Cardiolite 6’s latest features, including secure exchange of medical data.

See you at the stand and in the workshops!

About CEGEDIM LOGICIELS MEDICAUX (CLM):

CLM is a subsidiary of France’s CEGEDIM Group, a leader in medical IT, and offers a broad range of software and services for healthcare professionals. Its Crossway and MédiClick! software products are designed to meet doctors’ needs while incorporating the most advanced technical and regulatory requirements. Structured, communicative and scalable, they anticipate the main principles of the French Personal Medical File (DMP).

Cegedim Logiciels Médicaux offers solutions for both specialists and general practitioners, private practices, clinics, healthcare centers and networks.

CLM is a major player in Europe, and its products are run on more than 35,000 workstations.

Cegedim Logiciels Médicaux is part of CEGEDIM Group’s Healthcare and strategic data division. For more information: www.cegedim-logiciels.com

About CEGEDIM:

CEGEDIM has been developing exclusive databases and high value added software solutions since 1969.

Established as the world’s leading CRM provider for the life sciences industry with its Cegedim Dendrite business unit, CEGEDIM provides the world’s largest pharmaceutical companies with vital

support for successful Customer Relationship Management (CRM). Its Cegedim Strategic Data and Cegedim Customer Information activities are also dedicated to pharmaceutical companies and help them improve sales & marketing effectiveness thanks to the Group's strategic databases focused on the world drug market.

This expertise falls into the "Healthcare and strategic data" division of the CEGEDIM Group, which comprises the services specifically designed for pharmaceutical companies cited above and specific solutions dedicated to healthcare professionals (notably physicians and pharmacists in Europe) and health insurance providers.

The "Technologies and services" division capitalizes on the Group's technical skills in order to provide specific solutions to clients of various sectors, essentially in France.

CEGEDIM generated turnover of €541 million in 2006. Including Dendrite, the 2006 cumulated revenue would amount to €877 million for a workforce of 7,500 and operations in more than 80 countries. To learn more, please see our website: www.cegedim.com.
