

PRESS RELEASE

Cegedim Logiciels Médicaux: LAP certification renewed for its MLM web-based software

Certification extended through 2016-2019

Boulogne-Billancourt, August 29, 2016

[Cegedim Logiciels Médicaux \(CLM\)](#), medical software publisher and service provider to general practitioners and specialist doctors, announces that its web-based medical software, [MLM \(monLogicielMedical.com\)](#), successfully passed its tests this summer and has earned recertification for prescription assistance software (LAP) for the period 2016-2019.

[MLM](#) has been certified as prescription assistance software since 2013, and has just confirmed that it meets France's Haute Autorité de Santé (HAS) standards, which aim to ensure that prescription information is secure and traceable.

With this certification, [MLM](#) meets 100% of the criteria used to set payments under the Payments Based on Public Health Objectives scheme (*Rémunération sur Objectifs de Santé Publique*, or ROSP).

MLM: the advantages of secure, web-based service

LAP certification is intended to highlight aspects of the software's functionality that can improve prescription quality, simplify matters for the prescriber, and cut costs without hurting quality.

CLM's [MLM](#) removes the technical constraints for medical practice management: doctors have nothing to install and get access to continually updated software and automatic data storage. [MLM](#) is compatible with how practices are run today: it is accessible from anywhere, suited to any specialty and can be personalized to fit the preferences of each user. This makes it an excellent choice for doctors who work in multiple locations, in a group practice or in a multidisciplinary clinic.

With [Crossway](#), [MédiClick](#), [MLM](#) and its solutions for clinics and medical centers, CLM now offers a full range of certified healthcare software for PC, Mac and online that has earned it the e-health seal of approval from the ASIP Santé government agency.

About CLM:

Cegedim Logiciels Médicaux (CLM), medical software publisher and service provider, is a leading player in doctor computerization in France. CLM listens closely to the needs of healthcare professionals, and its teams develop and market solutions that help them run their practices day in and day out. In today's rapidly changing environment, notably with respect to medical professional demographics and course of care, CLM's software offerings ([MLM](#), [Crossway](#), [MédiClick](#), [Crossway CDS](#), and [MSP Solution](#)) give doctors patient record management solutions that are 100% certified, suited to their practice, regulatory compliant, innovative and scalable. Medical content can be personalized for each specialty, interfaces adapt to multiple work spaces (private practice, group practice, multidisciplinary clinic or medical center), and the software enhances mobility, data sharing and care coordination. The company's innovative software uses Pack Connect CLM for connected health and [Docavenue](#) for the most advanced doctor-patient communications. CLM employs 150 people, including more than 100 in regional offices to give doctors personalized service.
