

**SECURE MEDICAL MAIL® , CEGEDIM LOGICIELS MEDICAUX'S  
SECURE MESSAGING SOLUTION, IS CERTIFIED BY THE GIP CPS –  
FRANCE'S HEALTHCARE PROFESSIONAL SMARTCARD AUTHORITIES**

**SMM is interoperable with other certified messaging solutions**

**Paris, 3 December 2007** – Cegedim Logiciels Médicaux (CLM), software publisher and service provider to the medical profession, announces that its secure messaging product – **Secure Medical Mail** (SMM) – has just been certified by the GIP CPS, France's healthcare professional smartcard authorities. This approval allows SMM to be officially interoperable with all other certified messaging solutions.

**Secure Medical Mail® wins GIP CPS certification**

The "Medical Information Confidentiality" decree of 15 May 2007 requires secure exchange of medical emails. In response, and to meet the market's growing demand for secure messaging, CLM developed **Secure Medical Mail®** (SMM), its secure messaging product.

With SMM, CLM offers secure online exchanges between healthcare professionals. The product is based on GIP CPS technical specifications and features correspondent authentication, data encryption and electronic signatures.

Available on its own or paired with CLM's medical software, **Secure Medical Mail®** guarantees secure exchange of medical information. Users can access **SMM** directly from patient files in order to transmit all or part of their consultations as well as other components of the file. SMM is HPRIM NET-certified, so users can also receive lab test results directly. Now that it is GIP CPS-certified, SMM is officially interoperable with other certified messaging products. It lets physicians join the vast communication network being built using the healthcare field's information systems.

**About CEGEDIM LOGICIELS MEDICAUX (CLM):**

CLM is a subsidiary of France's CEGEDIM Group, a leader in medical IT, and offers a broad range of software and services for healthcare professionals. Its Crossway and MédiClick! software products are designed to meet doctors' needs while incorporating the most advanced technical and regulatory requirements. Structured, communicative and scalable, they anticipate the main principles of the French Personal Medical File (DMP).

Cegedim Logiciels Médicaux offers solutions for both specialists and general practitioners, private practices, clinics, healthcare centers and networks.

CLM is a major player in Europe, and its products are run on more than 35,000 workstations.

Cegedim Logiciels Médicaux is part of CEGEDIM Group's "Healthcare and strategic data" division. For more information: [www.cegedim-logiciels.com](http://www.cegedim-logiciels.com)

**About CEGEDIM:**

CEGEDIM has been developing exclusive databases and high value added software solutions since 1969.

Established as the world's leading CRM provider for the life sciences industry with its Cegedim Dendrite business unit, CEGEDIM provides the world's largest pharmaceutical companies with vital support for successful Customer Relationship Management (CRM). Its Cegedim Strategic Data and Cegedim Customer Information activities are also dedicated to pharmaceutical companies and help them improve sales & marketing effectiveness thanks to the Group's strategic databases focused on the world drug market.

This expertise falls into the "Healthcare and strategic data" division of the CEGEDIM Group, which comprises the services specifically designed for pharmaceutical companies cited above and specific solutions dedicated to healthcare professionals (notably physicians and pharmacists in Europe) and health insurance providers.

The "Technologies and services" division capitalizes on the Group's technical skills in order to provide specific solutions to clients of various sectors, essentially in France.

CEGEDIM generated turnover of €541 million in 2006. Including Dendrite, the 2006 cumulated revenue would amount to €877 million for a workforce of 7,500 and operations in more than 80 countries. To learn more, please see our website: [www.cegedim.com](http://www.cegedim.com).
