CEGEDIM LOGICIELS MÉDICAUX HAS A HOST OF NEW PRODUCTS TO PRESENT AT THE MEDEC CONFERENCE

**See all of CLM's innovations from 18 to 20 March 2008
At the Porte Maillot Palais des Congrès in Paris
Espace Informedica - Level 3
STAND G8**

Paris, 3 March 2008 – Cegedim Logiciels Médicaux (CLM), software publisher and service provider to the medical profession, will participate in the 36th annual MEDEC Conference, scheduled for 18-20 March 2008 at Paris' Palais des Congrès de Paris. CLM will use the opportunity to present "*LC 2008*", its new range of medical software suitable for all types of practices. At Stand G8, CLM will demonstrate **"*Medigest – LC 2008*"** and **Secure Medical Mail®** (SMM).

LC 2008: personalized, advanced technological performance with regulatory compliance

The software products in the *LC 2008* range (Crossway, MédiClick ! Studio, Doc'ware, Cardiolite, Eglantine, and Medigest) boast all of the healthcare and regulatory functions vital for effective day-to-day management of patient files.

Beyond this technical and regulatory guarantee, *LC 2008* lets physicians choose the solution best suited to their specialties, type of practice (private practices, clinics, healthcare centers and networks) and preferences.

For example, *Medigest* users are finding that "*Medigest - LC 2008*" is perfectly tailored to their habits and their work interface:
- Organizing patient files (icons and file tabs, synthesis window, important items / medical antecedents, etc.),
- Personalization through the use of selective editions for monitoring particular conditions and accessing specific patient file information,
- Personalization of consultation views (the software contains around 100 suggested formats, and users can create their own).

They also enjoy optimized functions like the inclusion of the Banque Claude Bernard drugs database in the prescription module, a more fine-tuned receipts module, a more comprehensive scheduling component, and so on.

"*Médigest – LC 2008*" has also been enriched with new modules: vaccination booklet, warnings management, family member searches, intuitive coding and all of the advantages of coding (taken into account for prescriptions, warnings, traceability, statistics, etc.), a powerful search engine, and more.

LC 2008: a wide variety of natively integrated functions

With *LC 2008*, CLM is now the first software company to offer a complete line of medical software that directly integrates:
- **Secure Medical Mail® (SMM):** GIP-CPS certified secure medical messaging system, interoperable with all other certified messaging programs on the market and compatible with all access providers.
- **Banque Claude Bernard drugs database (BCB)**: provides increased prescription security and helps reduce the risk of iatrogenesis.
- **Resip FSE**: optimized management of Electronic Treatment Forms directly linked with the patient file and the receipts module.

Natively integrated into all *LC 2008 Software by Cegedim,* these modules are also available in stand-alone versions. We will be demonstrating these products as well at the **"Espace Informedica" at CLM's Stand G8** during the MEDEC Convention.

About CEGEDIM LOGICIELS MEDICAUX (CLM):
CLM is a subsidiary of France's CEGEDIM Group, a leader in medical IT, and offers a broad range of software called *LC 2008* and services for healthcare professionals.
LC 2008 ensures that physicians' IT equipment complies with the latest technical and regulatory requirements while allowing them to choose the solution best suited to their specialties and type of practice (private practices, clinics, healthcare centers and networks). Structured, communicative, interoperable, and scalable, the *LC 2008* line of software (Crossway, MédiClick ! Studio, Doc'ware, Cardiolite, Eglantine, Medigest) is designed with information sharing and the DMP (French Personal Medical File) in mind.
CLM is a major player in Europe, and its products are run on more than 35,000 workstations.
Cegedim Logiciels Médicaux is part of CEGEDIM Group's "Healthcare and strategic data" division. For more information: www.cegedim-logiciels.com

About CEGEDIM:
Founded in 1969, CEGEDIM supplies services, technological tools, databases and data flow management services. CEGEDIM's expertise falls into two divisions. The "Healthcare and strategic data" division comprises services specifically designed for pharmaceutical companies, healthcare professionals and health insurance providers. The "Technologies and services" division covers a variety of sectors.
Established as the world leader in Pharmaceutical CRM, its historic core business, CEGEDIM employs nearly 8,000 people in 80 countries. CEGEDIM generated turnover of €756 million in 2007.
