

CEGEDIM LOGICIELS MÉDICAUX LAUNCHES ITS NEW LINE

LC 2008: LOGICIELS CEGEDIM 2008

For physicians' day to day needs

LC 2008, the CLM line of medical software that gives healthcare professionals:

- **high-performance technology,**
- **regulatory compliance, and**
- **a choice of solutions tailored to their specialty and type of practice.**

Paris, 30 January 2008 – Cegedim Logiciels Médicaux (CLM), software publisher and service provider to the medical profession, presents ***LC 2008***, its new line of medical software tailored to every type of practice.

***LC 2008* guarantees the most advanced technology at the forefront of regulatory developments**

All of the software in the ***LC 2008*** range – Crossway, MédiClick! Studio, Doc'ware, Cardiolite, Eglantine, and Medigest – boast the same high level of technological performance and applications: agendas and appointment scheduling; administrative management of patient files and file histories; standard consultations; course of care management; and many more.

Updated in real time, these software also integrate the latest regulatory developments: **FSE 1.40**, CCAM V11, prescription security and assistance using the **Banque Claude Bernard (BCB)** drugs database; and so on.

With ***LC 2008***, CLM is now the leading publisher offering a complete line of medical software that directly integrates secure online messaging: **Secure Medical Mail® (SMM)**. GIP-CPS certified **SMM** is interoperable with all certified messaging systems on the market and is compatible with all access providers.

LC 2008, a personalized approach

Apart from its guaranteed technological and regulatory content, **LC 2008** lets each physician choose his or her own solution – Crossway, MédiClick ! Studio, Doc'ware, Cardiolite, Eglantine, Medigest – as a function of specialty, preferences and type of practice (private practices, clinics, healthcare centers and networks):

LC 2008 is notably well suited to the needs of the general practitioner because it offers numerous applications, such as: clinical, cardiological, gynecological and pediatric examination forms; customized standard consultations; vaccination records; space for comments; patient statistics; optimized course of care management for the treating physician; and many more.

LC 2008 also meets the needs of specialists (cardiologists, hepatologists, gastroenterologists, gynecologists, pulmonologists, neurologists, rheumatologists, pediatricians, ophthalmologists, psychiatrists, and ENTs) with applications specific to each medical practice: tailored forms, ability to interface with specialty equipment; course of care management; and so on.

LC 2008, migration is a breeze

LC 2008 is designed for healthcare professionals looking to computerize their practice or update their existing IT equipment.

LC 2008 is paired with a suite of migration tools developed specifically for each software to help physicians make a seamless transition. Patient files can be used immediately with the new software.

About CEGEDIM LOGICIELS MEDICAUX (CLM):

CLM is a subsidiary of France's CEGEDIM Group, a leader in medical IT, and offers a broad range of software called **LC 2008** and services for healthcare professionals.

LC 2008 ensures that physicians' IT equipment complies with the latest technical and regulatory requirements while allowing them to choose the solution best suited to their specialties and type of practice (private practices, clinics, healthcare centers and networks). Structured, communicative, interoperable, and scalable, the **LC 2008** line of software (Crossway, MédiClick ! Studio, Doc'ware, Cardiolite, Eglantine, Medigest) is designed with information sharing and the DMP (French Personal Medical File) in mind.

CLM is a major player in Europe, and its products are run on more than 35,000 workstations.

Cegedim Logiciels Médicaux is part of CEGEDIM Group's "Healthcare and strategic data" division. For more information: www.cegedim-logiciels.com

About CEGEDIM:

Founded in 1969, CEGEDIM supplies services, technological tools, databases and data flow management services. CEGEDIM's expertise falls into two divisions. The "Healthcare and strategic data" division comprises services specifically designed for pharmaceutical companies, healthcare professionals and health insurance providers. The "Technologies and services" division covers a variety of sectors.

Established as the world leader in Pharmaceutical CRM, its historic core business, CEGEDIM employs nearly 8,000 people in more than 80 countries. CEGEDIM generated turnover of €541 million in 2006. Including the American company Dendrite which was acquired in May 2007, the 2006 cumulated revenue would amount to €877 million.
